Established in 1983 as the Tourism Council of the South Pacific, the South Pacific Tourism Organisation (SPTO) is the mandated organisation representing Tourism in the region.

Its 17 Pacific Island members are American Samoa, Cook Islands, Federated States of Micronesia, Fiji, French Polynesia, Kiribati, Marshall Islands, Nauru, New Caledonia, Niue, Papua New Guinea, Samoa, Solomon Islands, Timor Leste, Tonga, Tuvalu and Vanuatu. In addition to government members, the South Pacific Tourism Organisation also has private sector members.

SPTO’s goal is to develop tourism through the delivery of products and services that satisfies its members needs. The SPTO aims to be a customer focused international organisation, which is self-financing based on the delivery of identified value propositions. In order to achieve this, SPTO has member-driven work programs and adopts a commercial approach to the operations and activities of the Organisation. This ensures that the SPTO adds value to the activities of its government and private sector members.
Warm Pacific Greetings from the South Pacific Tourism Organisation!

I am delighted that you have picked up your own copy of the Traveller’s Guide to the Pacific Islands which you will find to be a useful guide to each of our 17 Pacific Island destinations.

Over the years, Tourism has played an important role in Pacific Island economies and continues to be one of the region’s few economically viable sectors. We attracted a total of 2 million visitors to our shores in 2016 and this number is forecasted to grow into the future. Two thirds of visitors traveling to Pacific Island countries are from Australia and New Zealand. While the United States, China, Japan and Europe are still relatively small markets, they represent significant growth potential.

The following pages display a variety of tourism products available in our island destinations and SPTO is proud to showcase the region’s natural environment, its warm and friendly people and unique culture as major attractions for our Pacific destinations.

More often, Pacific Island countries have been characterized by their small size, long distances to major markets and disperse populations. While these characteristics are often presented as challenges for economic growth and development, they are seen as comparative advantages, particularly in Tourism, with the destinations’ pristine natural environments and rich and diverse cultural heritages distinguishing them from other countries and regions around the world.

SPTO is committed to undertaking its mandate to market and develop the region’s tourism sector and I am especially proud to present to you this Travellers’ Guide to the Pacific Islands! I hope that you will find it informative and useful and that it will help you plan that memorable and enjoyable holiday in any of our South Pacific destinations!

Welcome to the Pacific! Ours is Yours!

Christopher Cocker

Have you ever dreamed of a marvellous, fertile world of sun-drenched landscapes that appears right before your eyes when you step off the plane? On The Islands of Tahiti, the air is full of alluring dreaminess. An explosion of colors dazzles your eyes as you scan verdant valleys, azure skies and turquoise lagoons. The multi-colored pareu (skirts) of the vahine (women) contrast with their ebony hair, bathed in the raw tropical sunlight.

Tahiti, Moorea, Huahine, Raiatea, Taha’a, Bora Bora and Maupiti are high and mystical islands with deep valleys perfumed by the tiaare (tahitian flower), short-lived jewels that one wears over the ear. Rangiroa, Manihi, Fakarava, Tikehau - atolls at the end of the world, these “pearl islands” enclose in their jewelry-box lagoons the blue depths where black pearls grow and develop.

From the north to the south, from the fertile plains of the Australs to the sharp cliffs of the Marquesas, these fragrant paradises combine all the different landscapes created by generous Mother Nature. Secret or rebellious, savage but never hostile, their beaches, shaded by coconut trees, tell of the centuries of erosion which made them gold or basalt, atoll or mountain.

Everything here whispers the legends of the maohi people who discovered these crumpled lands, where the uru (breadfruit), the fei (wild banana), and the taro (tubercle) thrive... these generous islands whisper to us, Manava, Welcome...

New Caledonia

Bonjour! Some people have likened this sophisticated French Territory to the French Riviera transported to the South Pacific. With its Parisian designer boutiques, duty free shopping, fine dining and high concentration of Europeans, it does have a distinctly international feel. Grande Terre, the island on which the capital Nouméa is situated, is where everything happens. It covers a 400km long area from north to south and is 50km wide from west to east. Surrounded by a 1,600km long coral barrier reef, New Caledonia has the largest lagoon in the world (24,000km²).

Nouméa’s attractive restaurants cater to all tastes and budgets ranging from the traditional French to Moroccan, Italian, Chinese, Japanese and even Vietnamese fare. Nightlife is very active in the capital with two casinos and a host of private clubs.

New Caledonia’s 231,000 inhabitants are spread across seven islands. The ‘Big Land’ as the main island is known dominates with the Loyalty Islands and Isle of Pines making up the balance of the group.

Samoa

Samoa is a postcard of natural beauty consisting of ten islands, each offering very distinct and different environments to explore - from the rainforest covered rugged volcanic mountain peaks of the two main islands to the vast valleys leading down to a coastline ringed with a necklace of white sandy beaches.

Within these lush green fertile valleys grow banyan trees towering above the rainforest canopy, full of tropical blooms and numerous varieties of vegetation. Cascading waterfalls drop into rivers that cut jagged lines through the valley floor as they make their way to the ocean.

The coastline is a wonder in itself, with sparkling white sand beaches - in some places stretching for miles - and here and there are walls of sheer cliffs that drop straight into the Pacific. Amongst all this natural beauty are nu’u or villages with their churches, meeting houses and open fale or homes encircling the malae or village green. Vanuatu

Vanuatu is like stepping back to another place and time. A time when water was pure and food was from the village. The smiles are warm and genuine. As soon as you arrive you’ll forget the world you left behind and experience a place that is unforgettable.

Across the 83 islands in the archipelago, the Ni-Vanuatu speak approximately 210 different dialects. Words like “schedule” are not common but “welcome”, “dance” and “relax” are easily translated. It’s probably why we have been selected the happiest country on earth twice.

Smiles aren’t the only thing you’ll see in Vanuatu. There’s a playground of rainforests, volcanoes, pristine beaches, coral seas, fresh food, adventure and relaxation. Every island is different, but smiles can be found everywhere.
